

GIGI GOLGI APPARATUS — THE PACKAGE PACKER!

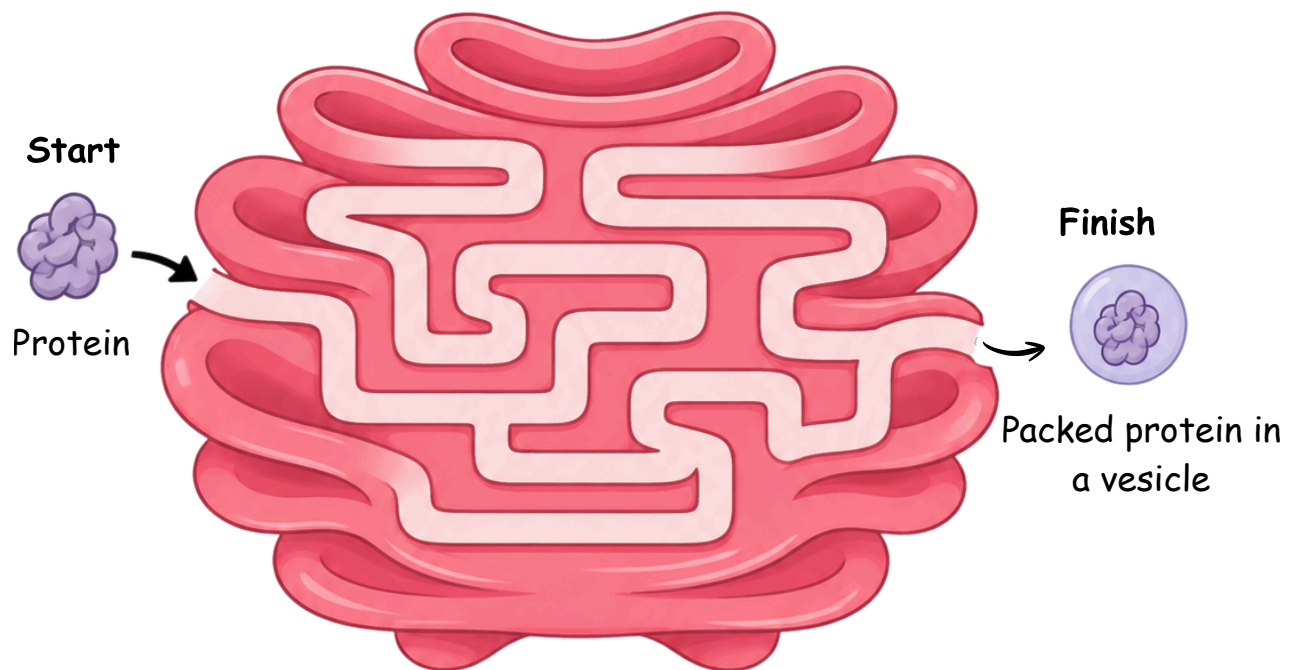

Help Gigi pack and send!

Gigi Golgi helps sort, package, and send proteins where they need to go.

HELP GIGI GET THE PROTEIN TO THE PACKAGE!

Draw a line through Gigi to help the protein get to the package.

What is Gigi's main job?

- ☐ Make energy for the cell
- ☐ Sort, package, and send proteins
- ☐ Protect the cell's DNA

GIGI'S QUICK FACT

The Golgi apparatus sorts and packages proteins to help send them where they need to go.
